BHCE/BWP OPERATIONS MEMO

No.: 03-03 Correction

Date: 04/11/03

Non W-2 [X] W-2 [X] CC [X]

PRIORITY: High

SUBJECT: DX Internet UCB And Bendex Conflict Match Changes

EFFECTIVE DATE: January 27, 2003

PURPOSE

The purpose of this Operations Memo is to describe the changes that have been made to the Internet UCB and BENDEX Conflict match processes.

BACKGROUND

The Internet UCB match and the BENDEX Conflict match are run monthly against national databases. The Internet UCB match identifies unemployment insurance benefits paid by other states to individuals on CARES. A disposition record resulting from this match indicates possible unreported unearned income on CARES. This match is also called the Interstate UC match or the Interstate Unemployment Insurance match. It is Exchange Type TNUC.

The BENDEX Conflict match compares the SSN's of individuals on CARES against a Social Security Administration database of SSN's for individuals receiving public assistance benefits in all other states. A disposition record resulting from this match indicates possible dual participation of the individual in public assistance programs in both Wisconsin and another state. This match is Exchange type SSBC.

In the past, both matches were screened and verified with the other states by DWD staff. Following that screening, only those matches that appeared to represent unreported income or dual participation were forwarded to caseworkers for action.

PROCESS

PROCESS FOR INTERNET UCB

Interstate Unemployment Insurance matches (Exchange Type TNUC) are being posted directly to caseworkers for disposition. These matches indicate that individuals in a case may be or may have been receiving unemployment insurance payments from another state that are not recorded on CARES. The match data is displayed on screen DXIU with the title "INTERNET UNEMPLOYMENT COMPENSATION DETAILS."

To complete disposition of these TNUC matches, workers should review the case records to determine if the indicated discrepancy is already known to CARES or is inconsequential to the case. If the review indicates that unreported UC payments may have occurred, the worker must document the facts of the discrepancy with the indicated other state or 'liable' state.

A revised EOS report is available for individual workers (Form CD70) that provides a summary listing of all TNUC matches in a match run. The report is organized in alphabetical order by county, by worker, and by liable state. Each page of the report provides a listing of all matches with a specific liable state for a particular worker's caseload. Workers may block out matches that do not require verification and send the edited report forms to the other states under a cover letter requesting verification documentation. Each report page includes a return address to the worker.

CURRENT PROCESS FOR BENDEX CONFLICT

BENDEX Conflict matches (Exchange Type SSBC) are being posted directly to workers for disposition action. These matches indicate that individuals in a case may be or may have been receiving public assistance in another state. The match data is posted on screen DXSA with the title "BENDEX CONFLICT." The name of the Other State is posted in the Communication field in the upper right side of the DXSA screen.

To complete disposition of these SSBC matches, workers should review the records to determine if the indicated conflict is already known to CARES or is inconsequential to the case. If the review indicates that dual participation may have occurred, the worker must document the facts of dual participation with the indicated 'other state.'

To assist in the verification with other states, a revised EOS report is available for individual workers (Form CD71). The report provides a listing of all SSBC matches in a match run. The report is organized in alphabetical order by county, by worker, and by other state. Each report page is a verification form for a specific match. Workers may disregard those match pages that do not require verification. For those matches that indicate potential dual participation, workers should send the verification forms to the 'other states' under a cover letter requesting verification documentation.
